

Coding Challenge - 004 : Team Members Page

Description

Project aims to create your development team web page.

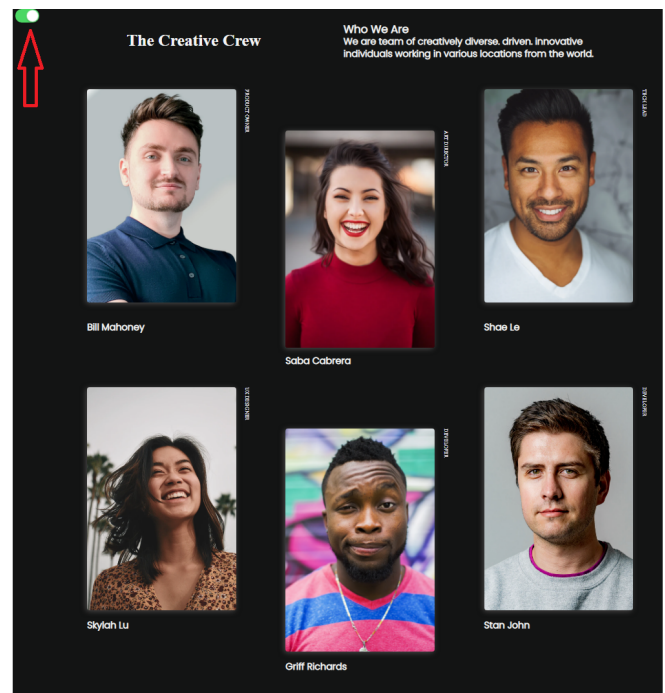

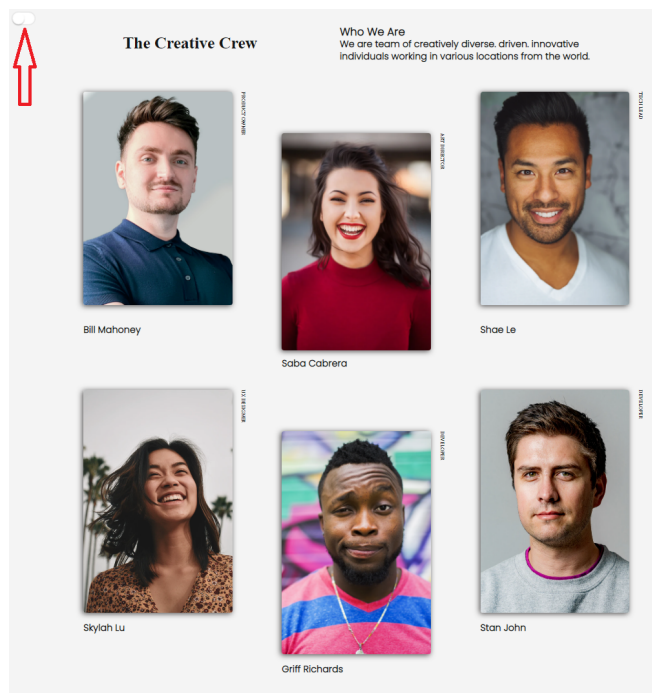

Problem Statement

- Your company is updating its website. They ask you to make your development team page.

Project Skeleton

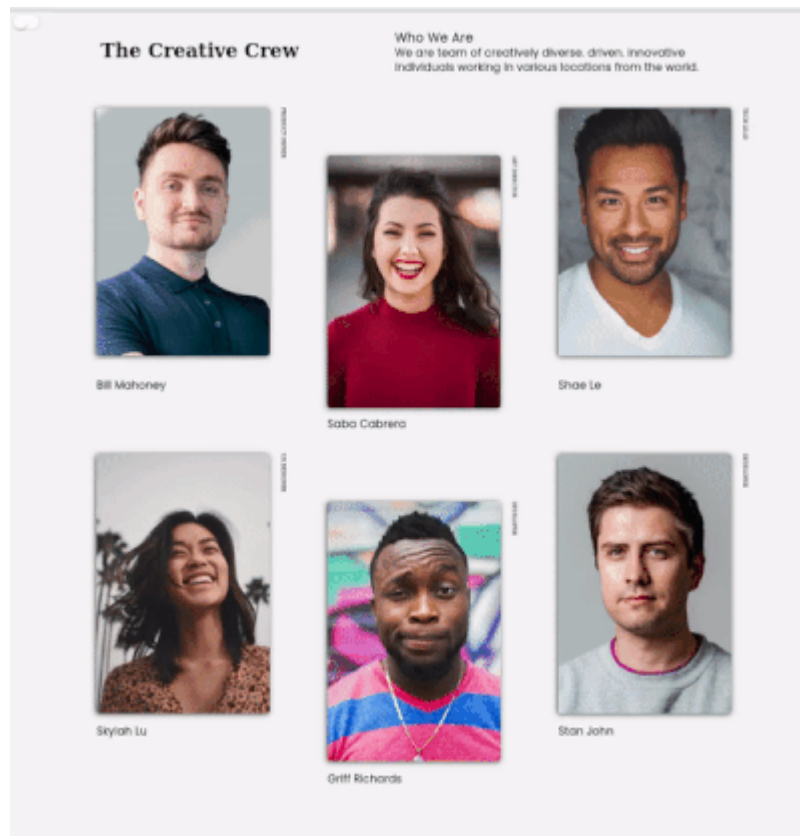

```
004-team-members-page(folder)
|
|----readme.md          # Given to the students (Definition of the project)
|----/images # Contains development team members photos
|----solution
|    |----index.html
|    |----style.css
|    |----app.js
```

Expected Outcome

Objective

Build a responsive web page similar to [Project 006 Snapshot](#) Add a theme button to switch your page theme day or night.

At the end of the project, following topics are to be covered;

- HTML
- CSS
- JS

At the end of the project, students will be able to;

- improve coding skills within HTML & CSS & JS
- use git commands (push, pull, commit, add etc.) and Github as Version Control System.

Steps to Solution

- Step 1: Download or clone project repo on Github
- Step 2: Create project folder for local public repo on your pc
- Step 3: Team Members Web Page

Part-1 HTML Structure

- Creat structure of the HTML5
- Give name of your project (title)
- Create the main structur of the HTML

Part-2 CSS Structure

- You can apply all the technologies you learn. (Sass, Flexbox, Grid, Bootstrap)
- Set a background and define font color
- Set container background color and margin
- Define others color-size-padding etc...

Part-3 JS Structure

- Create code for day / night theme switch

- Step 4: Push your application into your own public repo on Github
- Step 5: Deploy your application on Github template to showcase your app within your team.

Notes

- Pay attention to the direction of the texts in the picture.
- Your page should be responsive web.

🕒 Happy Coding 📝
